Professional Summary

Entry-level Python Full Stack Developer with a strong foundation in Python, Django, React.js, MySQL, JavaScript, HTML, CSS, and REST API development. Skilled in building responsive full-stack web applications with CRUD operations, database integration, JWT Authentication, and frontend-backend connectivity. Passionate about problem-solving, clean code practices, and continuous learning.

Education

Bachelor of Technology - Artificial Intelligence and Data Science 2021 – 2025

Dhanalakshmi College of Engineering

CGPA: 8.11

Higher Secondary Certificate 2021

D.G.M Higher Secondary School

Percentage: 84%

Secondary School Leaving Certificate 2018

S.D.Sion Matric Higher Secondary School

Percentage: 81%

Technical Skills

- **Programming Languages:** Python, SQL, JavaScript (ES6+)
- **Frontend Technologies:** HTML, CSS, Bootstrap, Tailwind CSS, React.js
- **Backend Technologies:** Django, Django REST Framework (DRF), REST APIs, JWT Authentication
- **Databases:** MySQL, SQLite
- **Tools & Platforms:** Git, GitHub, VS Code, PyCharm
- **Core Concepts:** CRUD Operations, Responsive Web Design, API Integration, State Management, Authentication & Authorization

Projects

Deepfake Image Detection System

- Built a deepfake image detection system using MobileNetV2 and EfficientNetB0 models.
- Applied image preprocessing, ensemble learning, and Grad-CAM for improved prediction accuracy and explainability.
- Developed a Gradio-based web interface for real-time image prediction and user interaction.

Full Stack Blog Application using Django

- Built a full-stack blog application with user authentication and CRUD operations for posts.
- Implemented profile image upload, password reset via email, and pagination features.
- Integrated MySQL database with Django ORM and designed responsive UI using Bootstrap and Django templates.

React-Based E-Commerce Shopping Platform

- Built a responsive e-commerce web application using React.js, Tailwind CSS, and React Router DOM with product search, category filtering, and cart functionality.
- Implemented Context API for state management and developed reusable components for scalable frontend architecture and seamless user experience.

Certification

- Python Full Stack Development – Pumo Technovation
